## Introduction

### Our Vision at Christ the Saviour

Rooted in our Christian foundation, we are an aspirational community loving and serving God. We seek to recognise and develop our unique gifts in accordance with the biblical principles of inclusiveness, tolerance and love, preparing children to be educated citizens in a global world.

### Our whole school curriculum intent:

Our curriculum is delivered through high quality sequential, subject specific learning. The themes of global learning and Christian Values weave throughout our curriculum. The curriculum is creative, coherent and inclusive and enables pupils to become self-motivated, independent learners. A focus on learner contribution and critical thinking enables the development of knowledge and skills that are meaningful and relevant in a global context. Each child's unique gifts are recognised and nurtured in order to prepare our children to be educated citizens in a global world.

The teaching of RE is central to achieving our school vision and our whole school curriculum intent. RE is an academic subject and is separate from Collective Worship, which has its own place in the life of the school (see Collective Worship Policy)

#### 1) The Legal Position

- a) The 1988 Education Act states that '**Religious Education has equal standing in relation to core subjects of the National Curriculum** in that it is compulsory for all registered pupils'
- b) As a Church of England Voluntary Aided School the provision of RE is in accordance with the Trust Deed of the School.

#### 2) The Importance of RE within the Whole School Curriculum

- a) Our curriculum teaches a sequenced understanding of biblical Christianity and how Christian beliefs are worked out in practise, for example in the celebration of the Eucharist, in fundraising and in service to the local community. In this way RE makes a significant contribution to the **spiritual**,

**moral, social and cultural** development of pupils within the school, helping them to understand the role of faith in the school and the wider **community**.

- b) The study of other religions and worldviews in RE lessons helps develop pupils' understanding of their own community and of **British Values**, particularly the value of tolerance and mutual respect for those with different faiths and beliefs and for those without faith.
- c) RE lessons provide a safe space for pupils to reflect on their own religious, spiritual or philosophical ways of seeing, living and thinking, believing and belonging. It gives them the knowledge, skills and understanding to discern and value truth and goodness, strengthening their capacity for making moral judgements and to make positive and healthy choices. Thus R.E. plays an important role in pupils' **personal development and well-being**.
- d) RE lessons providing opportunities to engage in meaningful and informed dialogue on the big questions of life, questions of meaning and purpose and right and wrong. In discussing such questions RE lessons explore global themes such as suffering, justice, refugees and conflict, making a significant contribution to pupils' **global learning** and preparing them to be citizens in a global world.

### 3) **Our Aims and Intent for RE**

We want to develop an enthusiasm for religious education with a deep understanding of how faith can enrich our lives. The whole child is developed through teaching knowledge and understanding of scripture and the thoughtful application of this in their everyday lives. The diversity of our school and local community is celebrated through the study of comparative faiths.

### 4) **Implementation**

#### Our RE Curriculum

The RE curriculum is a high-quality, sequential, scripturally based curriculum with units drawn from both The Way, The Truth and The Life and the LDBS syllabuses. The units on Christianity provide children with a deep knowledge and understanding of Christianity structured around the 8 key concepts in the 'Big Story of the Bible': God, Creation, Fall, The People of God, Incarnation, Gospel, Salvation and The Kingdom of God. Skills of critical thinking, reflection and application are developed through all RE units and the Religious literacy is promoted through the teaching of religious vocabulary. Every RE unit is centred around a 'big question' on the meaning and purpose of life, beliefs about God, issues of right and wrong or what it means to be human. (see Appendix I)

#### Organisational Overview

- In the EYFS RE is delivered through play based learning at least once a week.
- In KS1 and KS 2 RE is taught once a week for at least an hour and a half
- Six RE units are taught in each year group, each lasting half a term

- One of these units each year focuses on a comparative faith
- Each RE unit is structured around a 'Big question' about the meaning and purpose of life.
- The Christian RE units are founded upon biblical stories and themes.

### RE Lesson Planning and Delivery

- At the beginning of the unit a title page with the 'big question', key vocabulary and key images is stuck in the pupils' books.
- The 'big question' is displayed on a RE working wall for the duration of the unit.
- The working walls include visual stimuli and key vocabulary. This is added to throughout the unit and used as a resource for deepening pupils understanding. Cross curricular-links are made wherever possible and noted on the learning wall.
- Every RE lesson includes a learning objective for AT1 and AT2.
- To promote pupils' thoughtfulness each RE lesson should begin with a short time of reflection either themed around the school's worship focus for the week, the 'big' question, or the theme for the lesson.
- Opportunities are sought to recap prior learning to develop pupils knowledge and understanding.
- Subject knowledge is taught in engaging ways to promote a love and enthusiasm of RE. This could include video clips, dramatic readings, active use of resources such as the bible and the online bible, pupil re-telling of the stories, visual clues, prop bags, filling the gaps, story maps and images.
- Targeted questioning and class discussion is used to deepen pupils understanding.
- The main activity each lesson focuses on AT2, how children use and interpret ideas based in scripture. We aim to provoke challenging questions which foster personal reflection and spiritual development.
- Teachers link the lesson activity based on scripture to pupils' relatable scenarios (e.g. when learning about the christian family they can relate this to relationships they have in their own families), global scenarios (e.g linking learning about Abraham and Sarah leaving home and children then use this to understand how it may feel to be a refugee today), or current events (e.g. learning about creation and relating this to what we can do to affect climate change).
- Staff plan key questions carefully to prompt deep discussion and ensure work is demanding for all groups of pupils.

### **5) Assessment and Recording of RE**

- c) At the end of the unit, pupils are required to answer 2 assessment questions (one AT1 question and one AT2 question) which relate to the ideas of the 'Big' Question. These assessment questions are introduced to children at the beginning of the unit and staff use this as an assessment opportunity

to help gain an understanding of knowledge and progression.

- d) Ongoing formative assessment includes high quality questioning, teacher observations, particularly around children's verbal contributions, peer talk and collaborative learning.
- e) Pupils' progress is recorded on the assessment grids at the front of their RE books to inform pupils, parents and teachers of their progress.
- f) End of Year Teacher Assessment levels are entered annually on Target Tracker this level, together with a written report is provided for parents as the end of every academic school year.
- g) Governors use assessment data to monitor achievement.

## **6) Arrangements for monitoring standards of teaching and learning in RE**

- h) RE work is moderated and monitored by year groups in year team meetings through book looks and work sampling.
- i) RE work across the school is moderated and monitored by the RE Subject Lead and curriculum team through book looks, pupil voice and lesson observations.
- j) Annual assessment data is monitored and analysed by the RE Subject Leader and shared with the head teacher and the governor responsible for RE.
- k) This information will feed into the Church school self evaluation process. (SIAMs)

## **7) Responsibilities for RE within the school, (Head and Governors)**

- l) As well as fulfilling their legal obligations, the governing body and head teacher should also make sure that:
  - i) all pupils make progress in achieving the learning objectives of the RE curriculum
  - ii) the subject is well led and effectively managed and that standards and achievement in RE and the quality of the provision are subject to regular and effective self-evaluation
  - iii) those teaching RE are suitably qualified and trained in the subject and have regular and effective opportunities for CPD
  - iv) teachers are aware of the place of RE in developing pupils' understanding of religion and belief and its impact as part of the duty to promote community cohesion, tolerance and respect
  - v) teachers explore how new pedagogies and technology can be fully utilised to support RE learning objectives and promote community cohesion and uphold British values
  - vi) clear information is provided for parents on the RE curriculum and the right to withdraw
  - vii) R.E. is resourced, staffed and timetabled so that the school can fulfil its legal obligations on RE and pupils can make good progress

## 8) The right of Withdrawal from RE

- m) We are an inclusive community and the place of RE - as a church school - is highly regarded and valued. We recognise that parents have the right to remove their child from religious education on the grounds of conscience. However, the right of withdrawal does not extend to other areas of the curriculum when, as may happen on occasion, spontaneous questions on religious matters are raised by pupils or there are issues related to religion that arise in other subjects such as history or citizenship.
