Make sure you are being safe - only play online games with people you know because some people could be looking for your personal information to hack you. If you don't know the person you are playing with, make sure that you are safe but you still need to leave the game. If anyone on the game who you don't know asks inappropriate questions, leave the game immediately.

Staying safe online is a number one priority for playing online games – from Roblox to Minecraft.

Some tips on how to stay safe online are

- Don't be afraid to block people you don't know!
- Be mindful when you are using voice chat – only with people you really know.
