Social Science - Living

Christians try and take care of the world because it belongs to God. There are many different ways this can be done: through recycling, buying fair trade products, planting trees, using renewable energy, supporting environmentalist organisations and conservation projects.

Theology - Believing

Christians believe that God **created** the world and that he created humans **in his own image**. The bible teaches that God made mankind to **love and serve him** and to **enjoy him** and his creation **forever**.

The bible teaches that God has given mankind the job of being **stewards** of creation, that means we are to look after the world and take care of it. However, we make **wrong** choices (**sin**) and as a result the world has been spoiled.

Philosophy - Thinking

Where does beauty come from? How was the world made? How are we made in the image of God? Why has the world been spoiled? How can we best look after creation?
