

Year 1 Science - How can you identify different plants?

Key Vocabulary	
Wild plants	A wild plant seed grows where it falls. It doesn't need to be planted or cared for as it grows.
Garden plants	Garden plants are plants that people choose to grow in their gardens.
Weed	Weeds are wild plants that grow in places where people don't want them.
Deciduous	A deciduous tree loses its leaves each year.
Evergreen	An evergreen tree keeps its green leaves all year round, even in the winter.
Seeds	Seeds grow into new plants
Flower	Part of a plant that is brightly coloured. Grows at the end of the stem
Roots	Roots take in water and nutrients from the soil and keep the plant in the ground.
